DR. KERI CHIAPPINO HOSTS AUTISM THERAPY WORKSHOP AT WILD BY NATURE

*Workshop to Focus on Holistic Methods
to Maximize the Learning Potential of Special Needs Children*

FOR IMMEDIATE RELEASE

Smithtown, NY (February 8, 2010) – Smithtown Chiropractic Neurologist and Defeat Autism Now!® Practitioner Dr. Keri Chiappino announces she will host a workshop for parents seeking holistic healing therapies for their children with autism spectrum disorders. **“Maximize your ASD Child's Potential Holistically with the Defeat Autism Now!® Approach and Chiropractic Neurological Care”** will be held Wednesday, March 3rd at Wild by Nature in East Setauket from 7-8 pm (631 246 5500).

Designed for those with children who have been diagnosed, or suspect their child may have autism, topics range from a neurological overview on the mechanics of autism, to symptoms management and holistic, biomedical therapy. Attendees learn how imbalances in the brain can cause significant social, communication and behavioral challenges. Dr. Chiappino discusses drug-free, natural therapies that help restore brain balance and overcome repetitive motor behaviors such as rocking, hand flapping, and swaying. The important role of specialized diets, nutritional supplementing, and physical and cognitive exercises in the child's treatment plan will be covered.

- continued -

According to Dr. Chiappino, "Autism is a growing public health crisis. Recent statistics reveal that autism is on the rise, affecting 1 in 110 children. Early intervention is key to a child's future. This seminar presents the facts on how Chiropractic Neurology and the Defeat Autism Now!® Approach address the source of the symptoms – without medication or surgery. Prescriptive medicine controls symptoms without getting to the root of the problem; once the medication is removed or a dose is skipped, the problem returns. My workshop educates parents on the availability of therapies that offer an alternative to a life long dependence on medications and will help maximize their child's potential."

About Dr. Keri Chiappino and New Life Chiropractic

Dr. Keri Chiappino, DC DACNB earned her diplomate in neurology from the Carrick Institute after completing her DC at Life University in Marietta Georgia. She began working with children and teaching colleagues while serving as President of Life University's Pediatrics Club. As a Defeat Autism Now!® Practitioner she has dedicated her practice to improving the lives of children on the spectrum. Dr. Chiappino developed the Maximum Achievement Program (MAP) which utilizes hemispheric-specific stimulation for those children with deficits. She is currently in private practice in NYC and

Smithtown, Long Island.
